

LAUNCHING THE FINAL CONFERENCE OF THE AQUALIFE PROJECT

**Registration is open for the AQUALIFE
final conference**

Join the conference for free!

The project AQUALIFE reached the final step. An International Conference is planned for the closure of the project from 4th to 6th July 2018 with the main aim to exchange ideas, sharing knowledge, disseminate information among stakeholders, end-users, and scientists: the only way to put **theory into practice!**

Opening poster session and ice-breaker is planned on July 4th. On July 5th there will be an in-depth presentation of the results of the AQUALIFE Project, as well as a series of presentations by national and international experts on groundwater biology, ecology and geology. The communications will span from the ecosystems services offered by groundwater and dependent ecosystems, the role of bacteria in groundwater, new tools for analysing the Groundwater Dependent Ecosystems, to the presentation of the software AQUALIFE, and the methodological approach adopted.

On 6th July morning the participants will be take on excursion to the Stiffe cave, a fascinating cave harboring many groundwater species.

A trip in the darkness!
